

Atlantic Financial Inc. Confidential Investor Profile

Congratulations on taking the time to complete the Atlantic Financial Confidential Investor Profile and financial planning questionnaire. From this profile, your Financial Advisor will be able to provide you with a detailed set of financial recommendations.

Step 1: Print and complete the attached questionnaire, including the section titled Investment Objectives and Risk Tolerance

Step 2: Gather investment statements for all of your investment accounts, even those that you do not plan to make changes with and those Atlantic Financial is unable to manage (such as company 401k plans)

Step 3: Fax the completed Investor Profile and statements to Atlantic Financial's home office at

Fax: 781-319-0116

or mail to:

Atlantic Financial Inc.
167 Washington Street, Norwell, MA 02061

You will receive a copy of your plan by mail or email, a representative will contact you and set up a time review your plan

Please contact us with any questions at 800-559-2900.

Are there any assets listed above which should not be liquidated? If so, please specify:

Do you have a will? Yes No Have you created any trusts? Yes No

Do you have life insurance? Yes No

Investment Objectives and Risk Tolerance

1. This graph shows the potential range of gains or losses of a \$100,000 investment in each of seven hypothetical portfolios at the end of a 1-year period. The number above each bar shows the best potential gain for that portfolio, while the number below each bar shows the worst potential loss. In addition, a potential yield is shown for each portfolio. Given that this is the only information that you have on these seven hypothetical portfolios, which one would you choose to invest in?

- A: Portfolio A
- B: Portfolio B
- C: Portfolio C
- D: Portfolio D
- E: Portfolio E
- F: Portfolio F
- G: Portfolio G

2. Inflation (rising prices for goods and services) can have a significant effect on your investments by decreasing their potential purchasing power over time. Aggressive investments have historically outpaced inflation over the long run, have had more instances of short-term losses than more conservative investments. How do you feel about inflation and its impact on your investments?
- A:** I am satisfied with my investments keeping pace with inflation. Limiting the potential for short-term loss is my main goal, and I am willing to sacrifice the potential for higher returns.
- B:** I would like my investments to outpace inflation. I am willing to assume some potential for short-term loss in order to achieve that goal.
- C:** I prefer that my investments significantly outperform inflation. I am willing to assume a greater potential for short-term loss in order to achieve that goal.
3. Suppose that a substantial portion of your investment portfolio is invested in stocks. If the stock market were to experience a prolonged down market, losing 45 percent of its value over an 18 month period, what would you do (assuming your stocks behaved in a similar fashion)?
- A:** Sell all the stocks in your portfolio. You are afraid that the stock market is in a downturn and you cannot afford the decrease in value.
- B:** Sell half of the stocks in your portfolio. You think that the market may rebound, but you are not willing to leave all of your investment exposed to further loss.
- C:** Hold the stocks in your portfolio. You understand that your investment may be subject to short-term price swings and are comfortable 'weathering the storm'.
- D:** Buy more stocks for your portfolio to take advantage of their low price. You are comfortable with market fluctuations and assume that the stocks will regain their previous value or increase in value.
4. Once again, assume you have a substantial portion of your investment portfolio in stocks. If the stock market were to gradually decline at an average of 2 percent per month, eventually losing 22% of its value over a year, which of the following would you do?
- A:** Invest more now because stocks are selling for approximately 20% less than they were 12 months ago. You believe that the stocks will regain their value or possibly appreciate even higher over the long-term.
- B:** Sell the stocks in your portfolio and realize the 22% loss. You wish to avoid the risk of further loss.
- C:** Sell half of the stocks your portfolio. You are not willing to leave all of your investment at risk for further loss.
- D:** Do nothing. You are comfortable waiting for the stocks to regain their previous value or to increase in value.
5. Aggressive investments have historically provided higher returns while exhibiting greater short-term price fluctuations and potential for loss. How do you feel about fluctuations in the value of your portfolio?
- A:** I want to minimize the possibility of loss in the value of my portfolio. I understand that I am sacrificing higher long-term returns by holding investments that reduce the potential for short-term loss and price fluctuation.
- B:** I can tolerate moderate losses in order to achieve potentially favorable returns.
- C:** I can tolerate the risk of large losses in my portfolio in order to increase the potential of achieving high returns.
6. What is your time horizon for needing more than the yield on your portfolio?
- A:** Less than 3 years. **B:** 3-5 years. **C:** 6-9 years. **D:** 10+ years.

Account Activity: Contributions and Withdrawals

7. Will you require distributions or withdrawals from your account assets? Yes No
If yes, please indicate the expected amount as either: _____% per year, or \$_____ per year.
Please indicate how you would like the distributions to be made:
 Monthly Quarterly Semi-annually Annually
When do you anticipate these withdrawals to begin? _____
8. Will you make additional contributions/deposits to these assets? Yes No
If yes, please indicate the expected amount as either: _____% per year, or \$_____ per year.
When do you anticipate these deposits to begin? _____

Account Restrictions/Constraints and Preferences

9. Are there any limitations to holding specific asset classes in the portfolio? (e.g., *emerging markets*) Yes No
If yes, note below any maximum or minimum percentages on a particular asset class. (e.g., *no more than 50% equities*)

10. Do you wish to prohibit investments in certain securities or industry groups?
(e.g., *XYZ Corp. stock; alcohol, tobacco or gaming industries*)

Additional Information

11. Is there any additional information you wish to provide us so that we can best address your investment needs?
